

NewTown Sofas

NewTown Sofas, a leading manufacturer, can offer more than 4,000 fabric and leather options, with famous brand names such as Ross, Linwood, Warwick, Christina Marone, Crost, Yarwood and Bridge of Wear.

You can choose any fabric or leather on any sofa, chair or sofa bed. Our workforce is made up of fully skilled time-served crafts people, most of whom have been with us since the company was formed.

Although we are a small family business, we make modern and traditional designs and have the biggest selection from which to choose.

Having our own frame shop, we are able to make any size you require – shorter, deeper or wider - to suit you and your room.

Frames are made from ash or sycamore, controlled in managed forests and of high quality.

Having control from start to finish on each piece means that you can choose the type of cushions (foam, fibre or feather), and time is taken to match different fabrics, whether striped or checked.

Most of the upholstery now coming in from China, eastern Europe and Italy only offers you a standard size and colour from which to choose – and it is mostly the same all over. With us, you can mix the type of arms with cushions from a different style sofa.

We are not competing with low price, low wage imports, but give a high quality product on a quality frame, giving you a traditionally good service.

Your sofa, chair or sofa bed could be made and delivered to your house in two to four weeks.

Check out the possibilities at NewTown Sofas.

Stylish products are available at Urmston Bathrooms.

J & T Kitchens

After great success in north Manchester over the past five years, J & T Kitchens has now opened a new showroom in Northenden to service south Manchester.

We design, manufacture and install quality kitchens, bedrooms and home studies in any style, whether it be traditional, modern or contemporary. We also believe the right appliances and accessories make a huge difference, and that's why we offer an extensive range of top name brands from all the leading suppliers to suit everyone's budget. Whether it be a fully installed kitchen or to supply the DIY enthusiast, with hundreds of styles to choose from, you will not be disappointed.

Using the latest CAD technology, our specially trained in store consultants will take you through a step by step plan, until you get a design that suits you and your lifestyle.

You can take a virtual tour of your kitchen or bedroom, changing the styles and colours to suit your taste.

At J & T our design team will visit you at home at a time that suits you. With more than 12 years of experience, coupled with our personal and professional approach, we ensure that the whole process runs as smoothly as possible with minimum disruption. Everyone is welcome to come and browse around the new showroom, so why not take advantage of some of the opening offers? Alternatively, call John to arrange a home visit.

Visit the new showroom at J & T Kitchens.

Kissable lip tips

Here are some top tips from Collection 2000 makeup artist Kieron Bradshaw on how to get the most kissable lips this summer:

"Moist, smooth lips hold colour best. Exfoliate lips by gently brushing with a soft toothbrush, and apply lip balm to

smooth the way for the lipstick. For a professional finish, apply Collection 2000 Colour Extreme lipstick with a lip brush. And for a really sexy pout, add Collection 2000 Wet Look Shine Lip gloss in a complementing colour to the centre of the lips, for a luscious look."

Urmston Bathrooms

Would you like your new bathroom or kitchen to be dealt with by a professional company from start to finish, on time, on budget, with quality products and fitted to your satisfaction?

Then let Urmston bathroom, kitchen and tile centre help you.

We'll take the stress out of planning, buying or installation, by giving expert advice and guidance, providing quality products and a professional service.

We can supply the products only or, if you don't want the hassle of dealing with lots of different tradesmen, let us arrange it all for you – plumbing, tiling, electrics, gas or building work.

Personal TV with Slingbox

Taking the TV experience out of the living room, the Slingbox available from John Lewis is an electronics device that gives people a home TV opportunity wherever they are and on whatever display they happen to be in front of at the time.

Available from John Lewis, the

Slingbox turns virtually any Internet-connected, Windows-based computer (including Windows Vista) or any Apple Macintosh desktop or laptop computer into a personal TV.

The Slingbox redirects, or placeshifts, a single live TV stream from a basic aerial connection, cable box, satellite receiver or personal video recorder (PVR) to the viewer's PC or Mac computer or other mobile device.
