

Kissdental

Kissdental, the exclusive south Manchester cosmetic dentistry and facial rejuvenation clinic, has recorded a dramatic threefold increase in the number of women seeking aesthetic dental treatments since the beginning of the year.

With a recent study revealing that one in three women is now opting to undergo cosmetic dental procedures, Dr Kailesh Solanki, founder of Kissdental, believes that the celebrity culture is exerting a huge influence on this trend.

With everyone from footballers' wives to film stars and pop singers flashing perfect smiles, a flawless set of teeth is the latest 'must have' and is now eminently achievable for everyone.

Kissdental offers a menu of high-end treatments for those seeking a pure white 'Hollywood' smile, as well as more subtle results.

For a truly flawless look, Dr Solanki recommends ceramic veneers. Kissdental is one of only a handful of centres in the UK to offer pioneering CEREC 3D technology, a groundbreaking veneer treatment that can be completed in less than an hour.

Patients can view digital images of their new smile at the in-house ceramic studio to ensure veneers are tailor made to their exact specifications. Dr Solanki is one of only two accredited CEREC 3D trainers in the north west.

Kissdental also offers teeth whitening, a non-invasive procedure that can lighten natural tooth colour by six to eight shades for a glossy but natural look.

Kissdental's two-tier system involves one quick visit to the practice for Zoom technology whitening treatment.

Dr Solanki also provides an at home kit, which can be used either straight away for dazzling results, or up to six months after initial treatment for a more subtle look.

The practice's cosmetic dentistry treatments are complemented by facial rejuvenation procedures such as Botox and dermal fillers. Unlike clinics that specialise in non-surgical cosmetic treatments alone, Kissdental surgeons are fully licensed to administer local anaesthetic for dermal fillers, allowing a completely pain free procedure.

All procedures are carried out in a luxury, spa-like environment by Kissdental's highly qualified, caring surgeons.

High Level Fitness

Higher Level Fitness in Urmston is experiencing a quiet time before the New Year rush.

Manager Lee Green says, however, that people still need to stay fit as Christmas approaches. He advises that keeping an eye on what you eat in the run-up to Christmas may mean that losing those few extra pounds in the New Year is not such hard work.

He says people do tend to commit to getting fit at the start of the New Year, when the fitness centre becomes busy again.

Urmston Market

Urmston Market has a lot to offer this Christmas... a warm, friendly welcome from established market traders, plenty of good fresh produce, together with a host of seasonal bargains all to be found on this traditional, open air market.

Don't forget to support your local market, which is established in the heart of the Urmston community. From clothing to household goods,

electrical, jewellery, flowers and books through to fruit and vegetables, meat and drinks, there's something for everyone at Urmston Market.

Opening times over the festive period will be Tuesday, Friday and Saturday as normal, but the market will be closed on Tuesday, December 26 (Boxing Day).

All the traders and staff at Urmston Market send seasonal best wishes to all - have a Merry Christmas and Happy New Year!
